KINA RESPONDS WITH COMPASSION TO CHESHIRE HOME

KINA SECURITIES LIMITED was saddened to learn through the media that criminals had again broken into the Cheshire Home and stolen computers, UPS and printers.

“Papua New Guinea, unlike any other society, is one that cares for their elderly, and their physically and mentally challenged family members. Papua New Guineans even extend their arms and open their homes to embrace children left behind, to raise as their own. That is why we have no orphanages or retirement homes.

It is the extreme cases that come to be cared for at the Cheshire Home.

So what is this society coming to when our own people are stealing from the needy and vandalizing their property?”

At KINA, we take great pride in our heritage and traditions. We know where we’ve come from and are committed to where we want to be. It is this drive that has clenched winning outcomes.

And our donation is but a small token of appreciation for the community’s support to us and an expression of corporate compassion for an organization that champions the needs of the less fortunate – the Cheshire Home.

“This is one of our computers at the office, but with the support of our Management and Board, our IT Teamleader, Raymond Lapun has installed in it a new hard drive and we’ve provided a UPS to safeguard their work against power interruptions”

The Cheshire Home is a charity that is close to our hearts. Our staff go out in full force to support their efforts on our rostered Saturday’s at the Cheshire Home Sausage Sizzle at the Boroko Foodworld. So we were disheartened to learn what had happened.

No one works in isolation. Communities must surely be aware of stolen properties coming through. Please, we appeal to you all to be vigilant to such criminal acts and be brave enough to report them to authorities. Because when we become complacent to it, our own communities and people who miss out in the end.
